

## H. A. & C. ROWLEY LTD. (RowleySFX)

### Environmental Policy Statement

H. A. & C. Rowley Ltd. are committed to minimising the impact of our activities on the environment, to recycling and reducing waste.

We also give special attention to minimising the impact of the production of explosion, fire and smoke illusions on the environment both immediately and in a larger general sense.

The key points to our strategy to achieve these are :-

- Constantly reassess production methods and materials used for greener methods and economical usage.
- Reduce emissions from our transport fleet by promoting good economic alternative greener vehicles at the end of their life.
- Promote good housekeeping within our studio, workshop and premises to reduce consumption unnecessarily and reduce where possible day-to-day items consumed by staff.
- Recycle or refurbish equipment wherever feasible.
- Comply with all relevant environmental legislation and appoint a credible waste collection company at our premises.
- Raise awareness of environmental issues amongst staff, suppliers and colleagues to enlist their support.
- With regard to the generation of fire and flame effects, wherever possible, burn times are kept to the minimum to achieve the desired effect. We employ operational equipment to preset flame heights to suit requirements so that we can achieve minimum burn but retain 'continuity'. This promotes rapid cooling and fume reduction. This also complies with our policy on safety.
- Where practical, use sectional, directional explosives to reduce emissions, flame and debris. This also complies with our policy on safety.
